Memo for record

Subject: List of ORE publications in Records Center, 1946-50

1. Among the several accessions of ORE records transferred to the Records Center during recent months and years, the following file is of general interest to ORE.

2. A supposedly complete set of ORE's finished reports was retired in October 1956, by the Vital Materials Depository, with the concurrence of ORR. This file is identified at the Records Center as accession or "job" no. 57-158, and totals about 2 linear feet. The following major series are included:

- a. "CIA series," numbered, Sept. 1947-Nov. 1950
- b. "ORE Special Evaluations," numbered, Jan. 1947-Aug. 1950
- c. "ORE's," numbered, July 1946-Oct. 1950
- d. "ORE Situation Reports," numbered, Aug. 1947-July 1950
- e. ORE studies issued by ORR as CIA/RE's and CIA/RR's, numbered, Nov.-Dec. 1950.

3. Attached herewith is an item-by-item listing of these reports (15 pp.), which the Records Center sent to us today at my oral request to them while I was at the Records Center (on June 12).

4. There are still other files of ORE records among the many retired ORR files at the Records Center. A complete listing of the accessions involved awaits the completion of my survey of the ORR accessions folders, on file in the Records Center.
